

Project Executable Files

Date	3 July 2026
Team ID	xxxxxx
Project Name	Credit Card Approval Prediction
Maximum Marks	3 Marks

Project Executable Files

This section requires submission of all executable and deployable files for your project. Ensure all files are properly organized, named, and uploaded to the specified submission platform. The evaluator must be able to run or deploy your solution using the provided files and instructions.

Step 1: Submission Checklist

S.No	Item to Submit	Submitted (Yes / No / NA)
1	Complete source code (all files and folders)	Yes
2	README / Setup Guide (instructions to run the project)	Yes
3	requirements.txt / package.json / dependency file	Yes
4	Database schema / seed files (if applicable)	Yes
5	Environment configuration file (.env.example or similar)	Yes
6	Deployed application URL (if hosted)	Yes
7	APK / Executable binary (if applicable for mobile/desktop apps)	NA
8	Dockerfile / Containerization config (if applicable)	No
9	Test files and test results	No
10	Demo video or walkthrough (if required)	Yes

Step 2: File / Folder Structure

Provide an overview of your project's file and folder structure below:

```
Credit_Card_Approval_Prediction
├── 1. Brainstorming & Ideation
├── 2. Requirement Analysis
├── 3. Project Design Phase
├── 4. Project Planning Phase
├── 5. Project Development Phase
│   ├── Dataset
│   │   ├── Application_Data.csv
│   │   └── processed_application_data.csv
│   ├── deployment
│   │   ├── deployment_steps.md
│   │   ├── IBM_Cloud_Guide.md
│   │   ├── Procfile
│   │   └── runtime.txt
│   ├── flask_app
│   │   ├── static
│   │   ├── templates
│   │   ├── app.py
│   │   └── requirements.txt
│   ├── model
│   ├── notebooks
│   ├── src
│   ├── Coding & Solution.pdf
│   └── Code Layout, Readability and Reusability.pdf
├── 6. Project Testing

├── 8. Project Demonstration
├── README.md
├── requirements.txt
└── .gitignore
```

Step 3: Deployment / Access Details

Field	Details
Hosted / Deployed URL	Not Hosted (Runs Locally)
Login Credentials (Demo)	Not Required
Platform / Hosting Provider	Local Flask Development Server
Repository Link	https://github.com/mannemsindhupriya/Credit_Card_Approval_Prediction
Demo Video Link	https://drive.google.com/file/d/1W1Pios-hT6_WJwEw_HkvXJgLP9HSJBsr/view?usp=sharing

Step 4: Run Instructions

Provide clear, step-by-step instructions for the evaluator to run your project locally:

1. Download or clone the project from GitHub.
2. Open the project folder in Visual Studio Code.
3. Create and activate a Python virtual environment.
4. Install all required dependencies using:

```
pip install -r requirements.txt
```
5. Navigate to the Flask application folder:

```
cd "5. Project Development Phase/flask_app"
```
6. Run the application:

```
python app.py
```
7. Open the browser and visit:
<http://127.0.0.1:5000>
8. Enter applicant details and click **Predict** to obtain the credit card approval prediction.

Step 5: Known Issues / Limitations

S.No	Known Issue / Limitation	Workaround / Status
1	Application is not deployed online	Runs successfully on local machine

2	Prediction depends on the quality of the training dataset	Can be improved by using larger and more diverse datasets
3	Current application supports single prediction only	Batch prediction can be added in future versions
