

Project Demo Planning

Date	3 July 2026
Team ID	XXXXXX
Project Name	Credit Card Approval Prediction
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the project is presented effectively by demonstrating the problem statement, proposed solution, implementation, machine learning models, prediction process, and project outcomes. This document outlines the sequence of the demonstration and the activities performed during the project presentation.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction & Problem Statement	Introduce the project, objectives, and explain the need for machine learning in credit card approval prediction.	45 sec	Mannem Sindhu Priya
2	Solution Overview	Explain the dataset, preprocessing, feature engineering, and overall system architecture.	1 min	Mannem Sindhu Priya
3	Model Development	Briefly explain the machine learning algorithms (Logistic Regression, Decision Tree, Random Forest, and XGBoost) and the model selection process.	1 min	Mannem Sindhu Priya
4	Live Feature Demonstration	Demonstrate the Flask web application by entering applicant details and displaying the approval/rejection prediction.	2 min	Mannem Sindhu Priya
5	Model Performance & Results	Present the evaluation metrics and explain the best-performing model.	45 sec	Mannem Sindhu Priya
6	Conclusion & Q&A	Summarize the project, discuss future enhancements, and answer questions.	30 sec	Mannem Sindhu Priya

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Introduce the project objectives and explain the importance of predicting credit card approval using machine learning.
2	Solution Overview	Describe the dataset, preprocessing, feature engineering, machine learning models, and overall system workflow.
3	Live Feature Demonstration	Launch the Flask web application, enter applicant details, and demonstrate the approval/rejection

		prediction generated by the trained model.
4	Q&A Session	Summarize the project outcomes, discuss future enhancements, and respond to questions from the evaluators.
