Customer Journey Map

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage.

Phase of Journey	Stage 1	Stage 2	Stage 3
Actions <i>What does the customer do?</i>	- Visits the credit card application portal. - Reads eligibility criteria. - Starts the application.	- Enters personal, employment, and financial details. - Uploads required documents. - Submits the application.	- Receives the prediction/approval result. - Reviews the application status. - Takes the next steps based on the decision.
Touchpoint <i>What part of the service do they interact with?</i>	- Website/Application Portal - Information page - Registration page	- Online application form - Document upload section - Machine learning prediction system	- Result page - Email/SMS notification - Customer support (if required)
Customer Thought <i>What is the customer thinking?</i>	- Am I eligible for a credit card? - Is my data secure? - Is the process simple?	- Have I entered all details correctly? - Will my application be approved? - How long will the decision take?	- Why was my application approved or rejected? - Can I improve my eligibility if rejected? - Is the prediction accurate?

Customer Feeling <i>What is the customer feeling?</i>	• Curious • Hopeful • Slightly nervous	• Anxious • Excited • Concerned about the outcome	• Happy if approved • Disappointed if rejected • Satisfied with a quick and fair decision
Process Ownership <i>Who is in the lead on this?</i>	• Customer • Credit Card Provider • Website Administrator	• Customer • Machine Learning System • Bank Verification Team	• Machine Learning System • Bank Approval Team • Customer Support
Opportunities <i>How can we improve this stage?</i>	• Provide clear eligibility guidelines. • Simplify registration. • Improve user interface.	• Reduce form complexity. • Provide real-time validation. • Speed up prediction processing.	• Explain approval/rejection reasons. • Send instant notifications. • Offer recommendations to improve future approval chances.
